EDUCATION

JS Web Developer Software University

09/2020 - 11/2021

Sofia

Java Script

- I studied the basics of the language way to the some of the most popular frameworks. I learned the syntax of the language by solving problems every they. We studied unit testing using Mocha and Chai. We learn to create SPA using only vanilla JavaScript.
- After we learned SPA we than start learning Node JS and Express for server JavaScript applications . We practice with some of the most popular data base - MongoDB and the library Mongoose. I learned working with REST API servers.
- For Front-End we started with HTML and CSS and after that we switch to some of the most popular frameworks, Angular and React.

Java Developer Software University

01/2022 - Present

Sofia

Courses

- Java

CERTIFICATES

JS Applications

[Сертификат - JS Applications - February 2021 - Софтуерен университет \(softuni.bg\)](#)
